

Westpac Miracle Mix

Westpac's Miracle Mix is specifically formulated for the professional drywall contractor who demands the next generation of performance.

MADE IN THE USA

What is it?

Miracle Mix is designed to replace some of the water when thinning Westpac's joint compounds, textures, or setting compounds. It was developed to enhance drywall finishing systems for the most extreme requirements. It increases open time, reduces pocking, pinholing.

Mixing:

For joint compounds, add 2 to 3 cups of Miracle Mix per box.
For textures, add 1 quart per bag.
For setting compounds, add 1 to 2 cups per bag, depending on desired results.

Cleanup:

Wash tools with water before materials harden.

Storage:

Keep this product tightly sealed. Store in a dry location at room temperature. Keep the product from freezing.
